

digital russia the language pdf

Digital terrestrial television (DTTV or DTT) is a technology for broadcast television in which land-based (terrestrial) television stations broadcast television content by radio waves to televisions in consumers' residences in a digital format. DTTV is a major technological advance over the previous analog television, and has largely replaced analog which had been in common use since the ...

History. On 22 December 1993, Russian President Boris Yeltsin issued a decree which reorganised Radio Moscow with a new name: The Voice of Russia. A popular feature of The Voice of Russia was Moscow Mailbag, which answered listeners' questions in English about Russia. Until 2005, the programme was presented by Joe Adamov, who was known for his command of the English language and his good humour.
