

distribution theory in computer pdf

In probability theory and statistics, the exponential distribution (also known as the negative exponential distribution) is the probability distribution that describes the time between events in a Poisson point process, i.e., a process in which events occur continuously and independently at a constant average rate. It is a particular case of the gamma distribution.

Exponential distribution - Wikipedia

In probability theory and statistics, the Poisson distribution (French pronunciation: ; in English often rendered /ˈpɒwɪnsən/), named after French mathematician Siméon Denis Poisson, is a discrete probability distribution that expresses the probability of a given number of events occurring in a fixed interval of time or space if these events occur with a known constant rate and ...
