Social Media its Impact with Positive and Negative Aspects

Social marketing is the use of marketing theory, skills and practices to achieve social change. It has the primary goal of achieving "social good". Traditional commercial marketing aims are primarily financial, though they can have positive social affects as well. In the context of public health, social marketing would promote general health, raise awareness and induce changes in behaviour.

Social marketing - Wikipedia

In the social sciences, coding is an analytical process in which data, in both quantitative form (such as questionnaires results) or qualitative form (such as interview transcripts) are categorized to facilitate analysis.. One purpose of coding is to transform the data into a form suitable for computer-aided analysis. This categorization of information is an important step, for example, in ...
