Basics of International Economics

international economics is the idea that there are gains from trade—that is, that when countries sell goods and services to one another, this is almost always to their mutual benefit. The range of circumstances under which international trade is beneficial is much wider than most people appreciate.

1. INTRODUCTION WHAT IS INTERNATIONAL ECONOMICS ABOUT

of international economics that are essential for understanding, evaluating, and suggesting solutions to the important international economic problems and issues facing the United States and the rest of the world today, and that countries are likely to face in the coming years. These are: 1.
