The Four Biggest Mistakes Of Einstein's Scientific Life. 1.) Einstein erred in his 'proof' of his most famous equation,  $E = mc^2$ . In 1905, his "miracle year," Einstein published papers about the photoelectric effect, Brownian motion, special relativity and mass-energy equivalence, among others.

Einstein's 'Biggest Blunder' Turns Out to Be Right. What Einstein called his worst mistake, scientists are now depending on to help explain the universe. In 1917, Albert Einstein inserted a term called the cosmological constant into his theory of general relativity to force the equations to predict a stationary universe in keeping...

conversion of the collection of Einstein's largely unpublished correspondence and manuscripts into an archive suitable for scholarly study. Among his recent books are "Einstein, History, and Other ... Einstein's Third Paradise. S Third Paradise. Gerald Holton science. The science.

## **Gerald Holton Einstein's Third Paradise - history.aip.org**

Einstein's mistake lies in an unwarranted extrapolation: he assumed that the rest-mass change he found when using a nonrelativistic, Newtonian approximation for the internal motions of an extended system would be equally valid for relativistic motions.
