

electronic commerce and cross pdf

E-commerce is the activity of buying or selling of products on online services or over the Internet. Electronic commerce draws on technologies such as mobile commerce, electronic funds transfer, supply chain management, Internet marketing, online transaction processing, electronic data interchange (EDI), inventory management systems, and automated data collection systems.

E-commerce - Wikipedia

E-commerce has become a game changer in the international trade arena. One may argue that it is just another form of trade, but we need to keep pace with the changes it brings to the trade environment, and provide innovative solutions to deal with them.

World Customs Organization

An electronic signature, or e-signature, refers to data in electronic form, which is logically associated with other data in electronic form and which is used by the signatory to sign. This type of signature provides the same legal standing as a handwritten signature as long as it adheres to the requirements of the specific regulation it was created under (e.g., eIDAS in the European Union ...
