Japanning is a type of finish that originated as a European imitation of Asian lacquerwork. It was first used on furniture, but was later much used on small items in metal. The word originated in the 17th century. American work is more often called toleware. Although often referred to as lacquer, it is distinct from true East Asian lacquer, which is made by coating objects with a preparation ...

The first electrical machine used for an industrial process was a magneto, the Woolrich Electrical Generator. In 1842 John Stephen Woolrich was granted UK patent 9431 for the use of an electrical generator in electroplating, rather than batteries. A machine was built in 1844 and licensed to the use of the Elkington Works in Birmingham. Such electroplating expanded to become an important aspect ...
