exercise habits. That parent can use the program to lose weight, to improve health, or strictly to support the child. Participants meet in a group of families, led by a behavioral psychologist. Feedback from the leader and group support help people to stick to their goals. Also, you learn to improve family communication about weight issues.

behavior modification or the contributions of a particular treatment component (7). Because much of the data in this area comes from university-based studies, results may not be generalizable to normal clinical practice (21). Many comprehensive reviews of weight loss programs using behavior modification have been published (5-7, 21-26).
