

political competition and economic pdf

trate how lack of political competition can harm economic performance. In the model, party attachments are formed on a non-economic issue (race in the example of the South). These attachments may give one party a large advantage, blunting the responsiveness to voters over economic issues. This

Political Competition and Economic Performance: Theory and

Political, social, and economic system in which property, including capital assets, is owned and controlled for the most part by private persons. Capitalism contrasts with an earlier economic system, feudalism, in that it is

The Political Economy of Capitalism

One was competition, while another, innovation, is strongly influenced by competition. Studies within DFID and elsewhere, such as Dollar and Kraay (2001) of the World Bank have shown a strong positive correlation between economic growth and poverty reduction.

WHY IS COMPETITION IMPORTANT FOR GROWTH AND - OECD.org

relationship between political competition and economic growth. I make the assumption that municipalities with more evenly distributed votes between the dominant political party and opposition parties face more restrictions on decision making. Examining the effect

The Impact of Political Competition on Economic Growth

the effect of political competition and a neutrality to the party in power. The empirical strategy and the results are robust to a number of legitimate statistical concerns.

Political Competition and Economic Performance: Theory and

political sector would reduce the role of competition in organizing activities. In a political democracy individuals (or parties) do compete for political office-in, say, periodic elections-by offering platforms to the electorate.

Competition and Democracy - George Mason University

Political competition promotes economic growth and prosperity when the focus of such competition is ideas for improving the welfare of a broad base of citizens through the provision of market-enhancing public

Political Competition and Economic Growth - Project MUSE

Our model illustrates why political competition may promote economic policy and growth, although this is not the only possibility (see the end of the section for further discussion). We choose a specific model which captures some of the basic features of the empirical application. Two parties com-
