

products and process design pdf

In this chapter we will learn about product design, which is the process of deciding on the unique characteristics and features of the company's product. We will also learn about process selection, which is the development of the process necessary to produce the designed product. Product design and process selection decisions are typically made together.

to design but presents a general application of the five-step problem-solving methodology associated with the design process. The process described here is general, and you can adapt it to the particular problem you are trying to solve. THE DESIGN PROCESS The basic five-step process usually used in a problem-solving works for design problems as well.
