The ANA Center for Ethics and Human Rights. The Center is committed to addressing the complex ethical and human rights issues confronting nurses and designing activities and programs to increase the ethical competence and human rights sensitivity of nurses.

Ethics and Human Rights - nursingworld.org

Ethics involves systematizing, defending, and recommending concepts of right and wrong behavior. A central aspect of ethics is "the good life", the life worth living or life that is simply satisfying, which is held by many philosophers to be more important than traditional moral conduct.. Most religions have an ethical component, often derived from purported supernatural revelation or guidance.

Medical ethics is a system of moral principles that apply values to the practice of clinical medicine and in scientific research. Medical ethics is based on a set of values that professionals can refer to in the case of any confusion or conflict. These values include the respect for autonomy, non-maleficence, beneficence, and justice. Such tenets may allow doctors, care providers, and families ...
