

the global political economy pdf

Political economy is the study of production and trade and their relations with law, custom and government; and with the distribution of national income and wealth. As a discipline, political economy originated in moral philosophy, in the 18th century, to explore the administration of states' wealth, with "political" signifying the Greek word polity and "economy" signifying the Greek word ...

VERSION 2.4 This book evolved from a set of notes developed for the Global Economy course at New York University's Stern School of Business. The idea behind the course is to use the tools of macroeconomics to assess the economic performance of countries and the challenges facing businesses operating in them.
