An alphabet is a standard set of letters (basic written symbols or graphemes) that represent the phonemes (basic significant sounds) of any spoken language it is used to write. This is in contrast to other types of writing systems, such as syllabaries (in which each character represents a syllable) and logographic systems (in which each character represents a word, morpheme, or semantic unit).

The modern Greek alphabet has 24 letters. It is used to write the Greek language.. The Greek alphabet is thought to be where all important European alphabets came from. The alphabet was borrowed from the Phoenician alphabet around the 10th century BC, with many changes to make it fit the Greek language. The main change was that some of the Phoenician letters that were for sounds not used in ...
