Industrial Revolution that emphasize the revolutionary nature of the period and modern views that have emphasized that the events of 1760 to 1860 were merely an evolution from what had come before.

### **2. The British Industrial Revolution, 1760-1860**

agricultural revolution exactly coincided with the Industrial Revolution (see, for example, Crafts (1985)). Such a coincidence would suggest that the Industrial Revolution was just part of very broad productivity advance in the British economy in the years 1760 to 1860. Such a broad advance makes it likely that the Industrial Revolution had a ...

### **The Agricultural Revolution and the Industrial Revolution**

The Industrial Revolution has sometimes been regarded as a catastrophe which desecrated the English landscape and brought social oppression and appalling physical hardship to the workers. In Ashton's classic account, however, it is presented as an important and beneficial mark of progress.

### **The Industrial Revolution, 1760-1830 - T. S. Ashton**

The Industrial Revolution is the name given to the enormous changes that took place with technology, farming, mining, manufacturing, and transportation from the middle of the 18 th Century through to the middle of the 19 th Century.. These changes had a massive impact on people's social and cultural life, as well as their economic conditions.

### **12 Facts on the Industrial Revolution | Owlcation**

Before 1760, Britain was a predominantly agricultural country with a relatively small population of less than 9 million. A "modern" government "a long-time constitutional monarchy" ruled the country after the Glorious Revolution of 1688. They encouraged improvements in the national economy.
